

MAINTAINING SAMPLE INTEGRITY AND LAB SUSTAINABILITY

Staying compliant with codes and regulations doesn't have to be hard! The Thermote X has unlimited data history for easily accessible audit reports. Custom alerts empower your lab team to keep samples at the right temperature and monitor energy use. Use in labs with ultra-low temperature freezers and incubators.

WIRELESS TEMPERATURE SENSOR

Monitor Alerts/Historical Trends via Smartphone

78 inch temperature probe monitors -200°C to 200°C (-328°F to 392°F)

Powered by 3 x AA batteries (included)
6mo-2yr lifespan
Low battery alert

3.11 in x 4.96 in x 1.10 in
dustproof and waterproof

Connect via
Wi-Fi 2.4 GHz OR
long range
LoRaWAN -
you choose!

Unlimited users can
receive text message
alerts or grant access
to complete dashboard
with unique share code

Audit trail stores data if
device goes offline and
automatically uploads
when next on Wi-Fi

Connecting you with
actionable information.
SIMPLE. DURABLE. ACCURATE.

ZYNECT.COM

The Thermote X enables me to delegate freezer management to my PhD students while maintaining piece of mind that I will also receive alerts if the temperature is out of range.
